Certificate Course in Introduction to Basic Spoken Sanskrit  
And Intermediate Level of Spoken Sanskrit

### Overview

The knowledge of Sanskrit is very helpful for anyone who is interested in delving into the original texts relating to various subjects from the Indian traditional knowledge systems. This language, however, is often presented as a difficult language to learn for many and moreover as a classical language of the past that is of no special relevance in the contemporary world. Those who have been exposed to it in school often regard it as nothing more than a scoring subject and have little appreciation for the various dimensions of the language. The objective of this course is to give students a taste of Sanskrit as a living language by introducing them to its basic grammatical structures so that they can start understanding simple texts as well as allow them to use it in daily life. It also seeks to give them an understanding and appreciation of the beauty of
